

UCHIDA, Takaya

A Physical Oceanographer with a flair of data science

Office Address

Center for Ocean-Atmospheric Prediction Studies
2000 Levy Ave., Suite 292 | Research Bldg. A
Tallahassee, FL 32306
tuchida@fsu.edu
<https://roxyboy.github.io>

Languages

- Native: Japanese, English
- Conversational: French

Education

Doctor of Philosophy, Physical Oceanography Columbia University in the City of New York, USA	October 2019
Master of Philosophy, Physical Oceanography Columbia University in the City of New York, USA	February 2018
Master of Arts, Physical Oceanography Columbia University in the City of New York, USA	May 2016
Bachelor of Engineering, Environmental Engineering The University of Tokyo, Japan	March 2014

Research Experience

Assistant Research Scientist, Physical Oceanography Center for Ocean-Atmospheric Prediction Studies, USA	November 2022 - present
MOPGA Postdoctoral Fellow, Physical Oceanography Institut des Géosciences de l'Environnement, CNRS, France	October 2019 - September 2022

Submitted

- **Uchida, T.**, Q. Jamet, A. Poje, N. Wienders & W. Dewar. (In rev.). Wavelet-based wavenumber spectral estimate of eddy kinetic energy: Application to the North Atlantic. *J. Adv. Model. Earth Syst.* doi:10.31223/X5036Q;
- Deremble, B., **T. Uchida**, W. Dewar & R. Samelson. (In rev.). Eddy-mean flow interaction with the Multiple Scale Quasi-Geostrophic Model. *J. Adv. Model. Earth Syst.*;

Honors and Awards

- Co-investigator of the National Science Foundation (NSF) grant ‘Novel Ensemble Based North Atlantic Diagnostics’ with the reference OCE-2123632;
- Co-investigator of the ‘Assessing the Role of forced and internal Variability for the Ocean and climate Response in a changing climate’ (ARVOR) project funded for duration of 2022 - 2024 by the French Les Enveloppes Fluides et l’Environnement (LEFE) program;
- Attendee of Les Houches Summer School on Fundamental Aspects of Turbulent Flows in Climate Dynamics, which took place during August 2017 at l’École de Physique des Houches, France;
- Scholarship from the Heiwa Nakajima Foundation, a private foundation in Japan, from September 2014 - August 2016.

Technical Skills

- Proficient in compiling and running numerical models in Basilisk and Fortran, with experience using the MITgcm. Also moderately expertise in tuning and running the Darwin biogeochemical model;
- Proficient in big-data analysis and has continued contributing to the development of Python open-source software such as:

1. `xrft`: doi:10.5281/zenodo.1402635. <https://xrft.readthedocs.io/en/latest/>;
2. `xwavelet`: doi:10.5281/zenodo.6984380. <https://github.com/roxyboy/xwavelet>;
3. `xgcm`: doi:10.5281/zenodo.4821276. <https://xgcm.readthedocs.io/en/latest/>;

available via the Github platform, and `pip` and `conda-forge` package managers. Also has contributed to the implementation of Pangeo Forge for cloud-based computational analyses (doi:10.5281/zenodo.6762536);

- Moderate understanding of machine learning with experience using `scikit-learn`.

Service Activity

- Special government employee on the NSF panel for scientific proposal reviews;
- Reviewed manuscripts for the *Journal of Physical Oceanography*, *Journal of Advances in Modeling Earth Systems*, *Journal of Geophysical Research: Oceans*, *Geophysical Research Letters*, *Global Biogeochemical Cycles*, *Nature Communications*, *Ocean Modelling*, *Climate Dynamics*, *Journal of Marine Systems*, *Biogeosciences*, *Geoscientific Model Development*, *Frontiers in Marine Science* and *Journal of Limnology and Oceanology*;
- Served as a reviewer for the Wallenberg Academy Fellowship awarded by the Knut and Alice Wallenberg Foundation in Sweden, and the BIENVENUE Call 2021 (H2020-MSCA-COFUND-2019) managed by the Regional Council of Brittany, France.
